

Grigore and Eudochia Gudz

Grigore Varlaam Gudz was born in 1938 in the village of Butuceni to a family of peasants with four children. They moved in Straseni in 1947. He attended school through the seventh form in Straseni, then he worked for 15 years as a fireman. Then he became a worker at a communal farm for 19 years.

Grigore met Eudochia at school. Eudochia was born in Straseni in 1938, also to a peasant family. She worked for 21 years as a cleaning woman and an assistant cook at the boarding school in Straseni.

Now they are very ill. Grigore has big problems with his legs that cause limited mobility and Eudochia has cataracts and limited vision. They have no children to help them and no close relatives interested in caring for them. Together their monthly pension is 65 euros. This is hardly sufficient for their survival, to buy food, medicine, and heating fuel.

Grigore and Eudochia ask for financial support for food, medicine, and heating fuel.
